Hiring Manager Unitiva [Company Address] Naples, Campania, Italy

Dear Hiring Manager,

I am writing to express my interest in the Odoo Software Developer position at Unitiva as advertised on LinkedIn. With a strong background in software development, particularly in Python and Java, along with my recent experience in data science, I believe I am well-equipped to contribute to your team's success.

As a Ph.D. student focused on leveraging technology to enhance communication and machine translation, I have honed my analytical skills and problem-solving abilities. My education at the University of Pisa has sharpened my expertise in working with complex algorithms and integrating systems effectively. Additionally, my experience as a freelance Java Developer, where I created Minecraft plugins, has provided me with a solid foundation in programming and teamwork.

I am particularly drawn to this opportunity at Unitiva due to your commitment to innovation and inclusivity. Working with an Odoo GOLD Partner aligns perfectly with my growth ambitions, and I am excited about the prospect of developing and customizing Odoo modules to meet unique business needs. My experience with integration APIs and third-party software will ensure that I can immediately contribute to maximizing process efficiency within your organization.

Thank you for considering my application. I look forward to the opportunity to speak with you soon.

Warm regards,

February 12, 2025
